**IDEAS THAT GIVE YOU THE EDGE  
PRESENTATION THAT GETS YOU NOTICED**

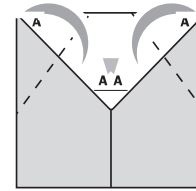

Start on the reverse side of the paper

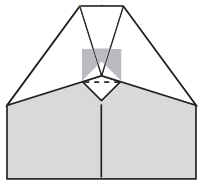

Follow the lines

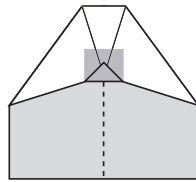

Fold up tip and **unfold again**

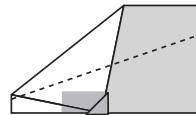

Fold A to A on both sides

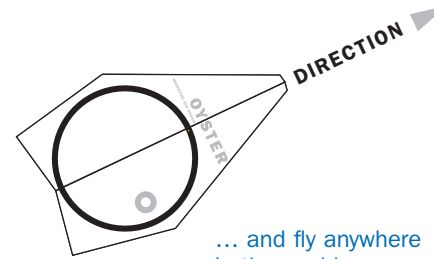

Turn up tip to lock corners

Fold 'plane in half leaving the folds on the outside

Fold down the wings

... and fly anywhere in the world

Throw the 'plane gently forward on a flat trajectory. If it nose dives, bend up the back of the wings a little. If the nose rises and then stalls, bend the back of the wings down a little.
